Collectors Club of Chicago

Welcome to the Collectors Club of Chicago's 'Open House 2016' event. We wish this day to be one for you to treasure, so please do enjoy the exhibits, the library, the tours, the meetings, and the moments of philatelic fellowship.

Charles E. Cwiakala, President
Collectors Club of Chicago
July 16, 2016

The Collectors Club of Chicago (CCC), incorporated on October 13, 1928, has as its primary objective the documentation, preservation, advancement, and promotion of philately through education, study, research, and associated services.

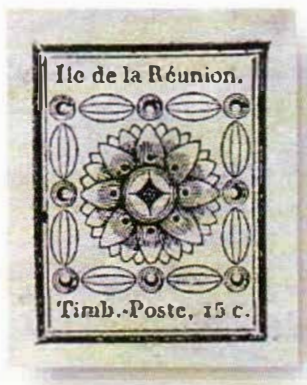

The CCC Library, the largest and most comprehensive philatelic literature library in the Midwest, serves CCC members as well as those in the philatelic community demonstrating a need to conduct philatelic research.

In 1967, CCC member Richard McP. Cabeen and his wife bequeathed their four-level 'Chicago Brownstone' home, located in Chicago's historic 'Gold Coast' neighborhood, to the Collectors' Club of Chicago. Now completely renovated, the 'Cabeen House' hosts monthly social and general meetings for its members, complemented by a formal dinner and an invited guest speaker.

If you are interested in becoming a guest speaker, please contact Kathy Johnson at kj5217@aol.com.

Joseph C. Banchak, CCC

Great Britain Printing
Aerogramme Error

Guess how many colors are
missing in this printing error
of the 1969 Christmas
airletter.

The top stamp has the error.

The Royal Philatelic Society London

We have over 2,200 members, including 265 in the United States and over 900 members in the United Kingdom. We welcome new members who share our aims and objectives, from wherever in the world they reside.

Frank Walton, President

The Royal Philatelic Society London

The Royal Philatelic Society London is the oldest philatelic society in the world, established in 1869 as The Philatelic Society, London. Our libraries, collections, and archives go back to the beginning of the postage stamp and beyond. The Society has published its own journal, *The London Philatelist*, since January 1892. The journal has a worldwide reputation, and members receive it ten times a year. A large number of other organizations at home and overseas also receive the journal.

The Society purchased its present headquarters in 1925. In addition to a large meeting room, there are members' and council rooms, a library, a museum and archive, and offices. The Expert Committee makes one of the most valued contributions to philately. Members may submit stamps and covers to the committee, which gives an opinion as to the item's genuineness and issues a certificate accordingly. As part of its own reference material, the committee maintains a comprehensive collection of forgeries and fakes.
